21. Please write any comments that you think will help the department in improving the Educational Space and Resources:

10826595	I will help to have one person from IT that we can contact. Also, it will be nice to use WEBEX for training, for cases in which we cannot attend training at GWU... Some of us live far away...

10829728	Ensuring that professors have access to basic supplies for classes such as copy machine, white board markers, erasers, pens, paper, etc. on main campus. Also, there is a need at the off-campus locations to ensure that courses are scheduled in the the proper rooms for the course content. I.E. MGT416 - Computer Lab, etc.

10830008	
10830022	Computer equipment is either very good or does not exist, depending on the GOAL center.
10830460	WebCT overall is fine, but there are several things which are difficult, but may be due to my limited understanding: 1. Efficiently copying one class material to another. 2. Uploading exams without data errors. 3. Efficient chat sessions have to be done through WebEx. WebCT is better than it was, but still not to the level of WebEx. 4. Opening multiple classes at the same time.
10830854	I think we should look into different online delivery portals.

10833274	My recent experience has been at the Charlotte and Gaston College sites. My responses do not refer to the main campus.

10835779	I strongly believe that an updated blackboard is needed in order to improve the online learning.
10837986	I answered Questions #10 and 11 based on the program in which I primarily teach.
10842224	I have taught for GWU for many years, and I am completely satisfied with the educational space and resources available!

10872235	
10876299	I have been and remain very pleased with my experience in teaching with GWU.

10885223	We should consider requiring students to have a laptop of a minimum configuration.
10885428	
10892653	
10893892	Decrease number of students in each class.
10895222

10920601	On the first page of this survey: If you answer that you have never taught an online course the next question cannot be answered as asked. The survey would not let you continue w/o checking one of the boxes; now all your data for that question is contaminated.
10930961	The resources available at satellite GOAL centers is lacking in equipment, such as, computers, overhead projectors, etc.
