RESPONSE RATE

The data shows that for the majority of survey items, GWU completers are rated highly (80% and above) when compared to their peers from other institutions. While our overall survey results are slightly lower than last years, our completers are still at 80% or above when compared

2 - Satisfaction of Employers (R4.2, R5.3, RA4.1)

to those at other institutions. Special considerations for our lowest components (Multicultural and Fluency) are being made in order to on par with the other components.
